Dear Mr. Craig,

I've delayed responding to your Feb 5 hoping to find more time than I now have but going over the proofs of NEVER AGAIN! is taking much more time than I expected and I have to rush that. Planned pub date in April. Dal has already ordered a copy from The Last Hurrah Bookstore. (Good people those two.)

My copy of the Marchetti book has disappeared. As my wife would say, and would be right most of the time, loaned to someone who did not return it. So I cannot now check that. But in reading Summers and what he attributes to Hemming, as usually is d so, Hemming is not a dependable source. I know him. The way he uses "crypto" in the Summers pages you were so kind and tent tells me he knows nothing about it.

And that is bull about the socializing with the U-2 people. They were to themselves and socializing was prevented.

I'm aware of that phonecall but believing I could get nowhere with it, did no work on it. I've not heard of anything definitive.

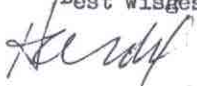

I think Hurt was connected with Army intelligence.

I think also that what I remember of it is some of what Fensterwald told me.

I've learned also not to take Summers without confirmation.

The odd thing is that Oswald really never had any more money that was ever visible, including to Marina.

Sorry I've not time for more and can't now search files.

Best wishes,

Harold Weisberg
